

'Kingdom of Dreams' for Harmony home kids

Harmony Homes, a home for under privileged children had taken more than hundred children to Kingdom of Dreams. The event was organised by Kingdom of Dreams as part of their CSR initiative - (corporate social responsibility). Apart from the show, the kids were given a full tour of the culture

gully as well which the children thoroughly enjoyed. They had never visited such a glamorous place in their lives and were awestruck. Everything from the entrance to the staircase to the eating joints till the rest rooms was a whole new world for them and the expression on

their faces was simply priceless. "We are glad they got to see this world out of their slums that they didn't even know existed so now they can strive to do well and progress," said Meghna Eidnani Maira, manager of Harmony Homes
